

PMPlan4 Pro Installation and Activation Instructions

Thank you for evaluating the PMPlan4Pro Project Management Software. The basis for the development of PMPlan4 originated and evolved from the project management needs during the early 1980's.

Should you purchase an edition of PMPlan4, we urge you not give your activation information to anyone, as PMPlan4 will be activated only on your computer. Please direct others desiring to use PMPlan4 to obtain their own download, purchase and activation from our website, <http://www.pmplan.com>.

Here are the instructions for installing PMPlan4 on to your Windows PC (or Virtual PC on your Mac).

- Download the zip file (PMPlan4ProInstallation.zip) onto your Desktop.
- Right-Click Desktop
- Select 'New | Folder'
- Name it 'PMPlan4 Setup'
- Double-Click the downloaded zip file
- Select all the components in the opened zip file
- Drag the selections onto the new folder
- Double-Click 'PMPlan4 Setup'
- If using Windows XP, Double click this icon 
- If using Windows Vista or 7, Right click this icon  , then select 'Run as Administrator'
- Click the 'Install' button (Note: If you are using Windows XP that doesn't have .Net 3.5 and/or MSI Installer 4.5, you will see more prerequisites, and you will have to restart Windows XP one or two times).
- Follow instructions until the installation is completed (It will take from 20 to 30 minutes).
- Once the installation is completed follow the next instructions to either use the 30 day trial evaluation, or to purchase, register and activate PMPlan4.
- ***Double-click the PMPlan4 icon on the desktop to start the application.***

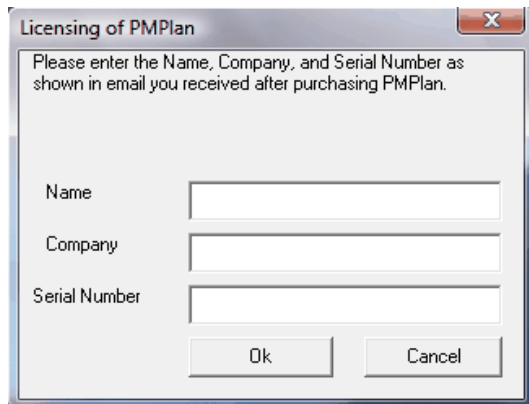

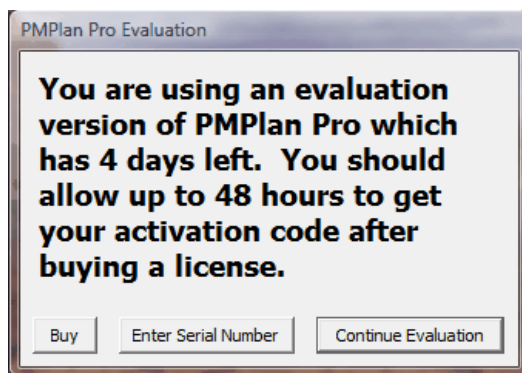

To use the Trial Evaluation:

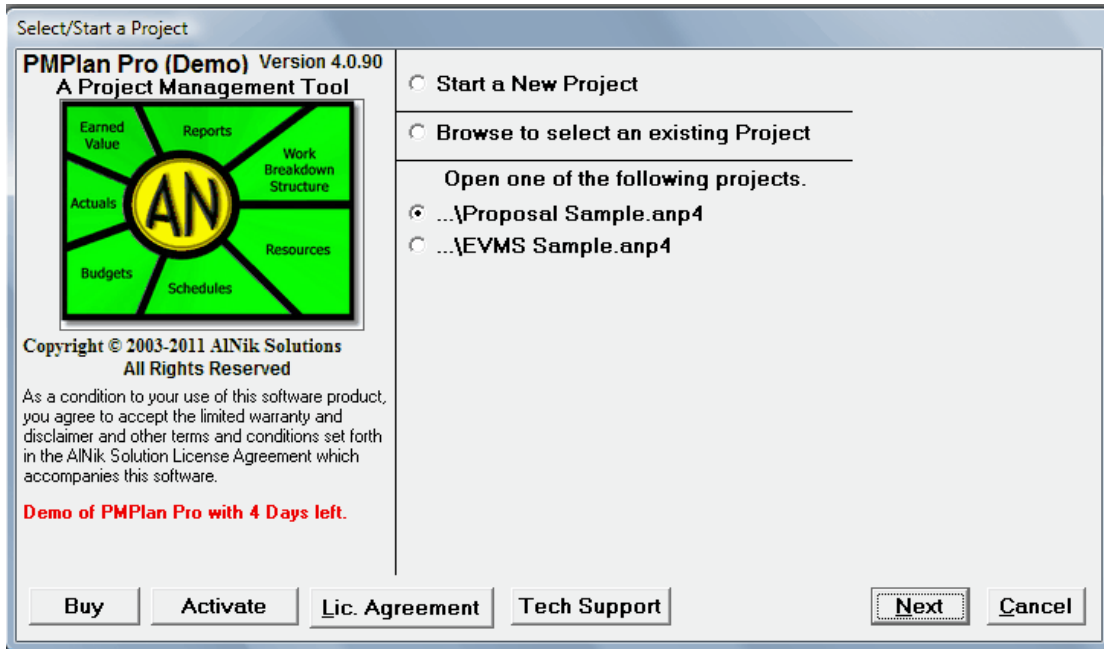

Start PMPlan4, and on the “Evaluation” dialog, select “Continue Evaluation”. You will have 30 days before the purchase of a standalone PMPlan4 product, and the “Activation” of that product is required to continue its use. After 30 days, the PMPlanPro4 Trial Evaluation will be disabled until such time a PMPlan4 product of your choice is activated.

To activate PMPlan4 for continued use:

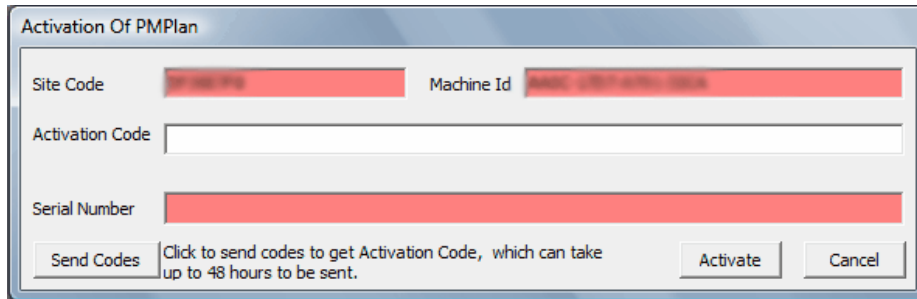

First purchase a standalone PMPlan4 product of your choice. Start PMPlan4, and on the “Evaluation” dialog, select Enter Serial Number, then on the following "Licensing of PMPlan" dialog enter your corrected Name, Company, and serial number.

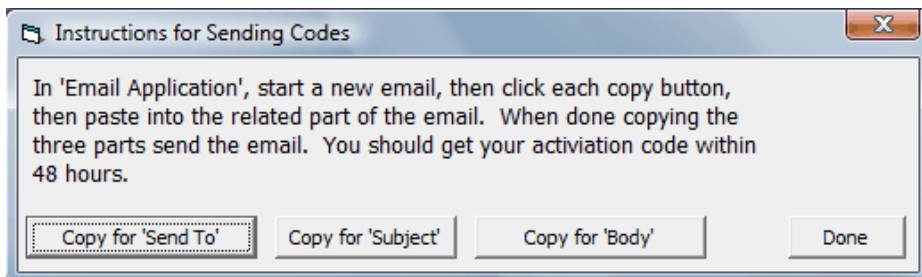

Next you will see the “Select/Start a Project “dialog for PMPlanPro, version 4.

By selecting the “Activate” button, on the lower left, you will start the activation process with the “Activation of PMPlan” dialog

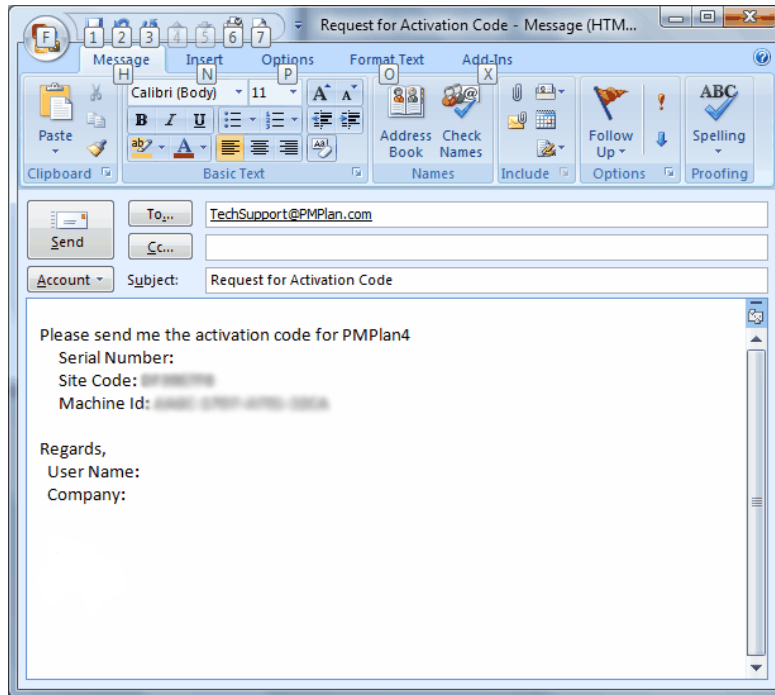

To Activate PMPlan4, first make sure that all information is entered into the “Licensing of PMPlan” dialog, including the Serial Number. Then enter the activation code into the “Activation of PMPlan” dialog.

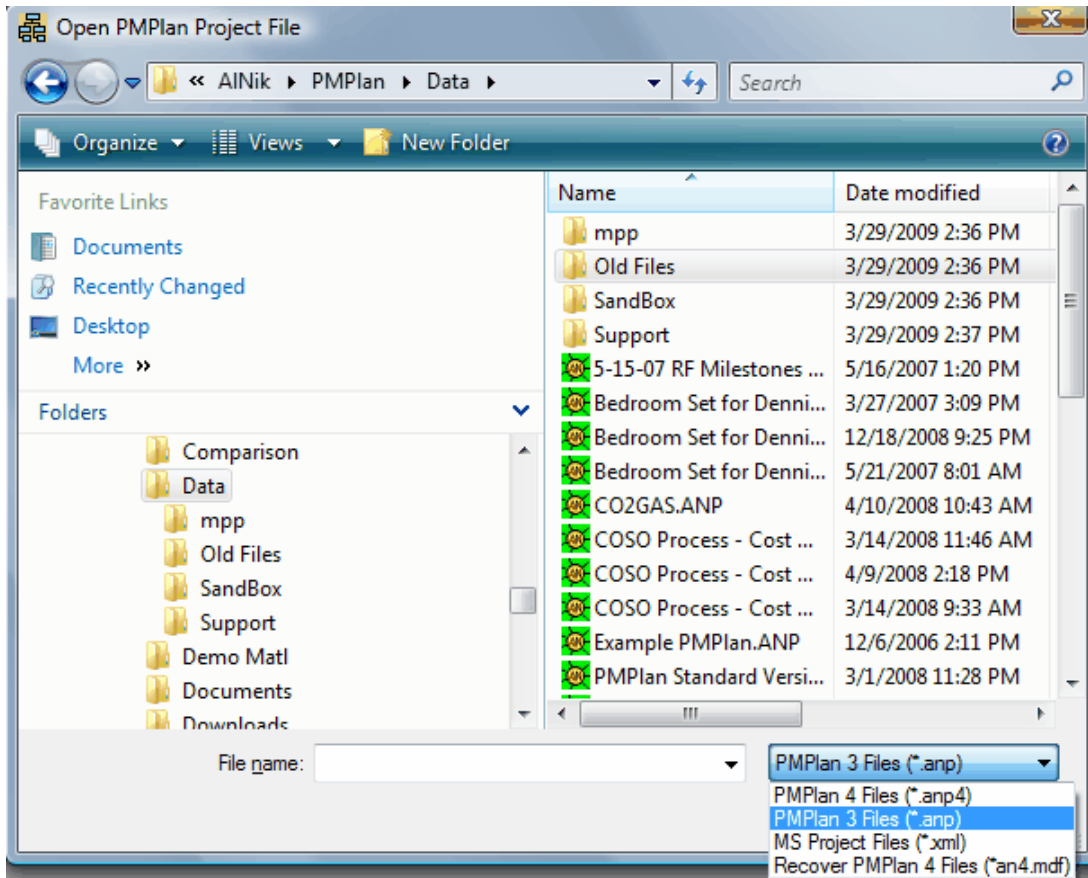

This will format your email request for the activation. Do the next steps one at a time! First, open a new email. Next, the “Copy for Send To” button will copy the email send to address for you to paste into your new email. Then, the “Copy for Subject” button will copy the email subject matter for you to paste into

your new email. Last, the “Copy for Body” button will copy the email body text for you to paste into your new email.

When the new email to TechSupport@PMPlan.com is finished, send it and select “Cancel” and “Done” on the two previous dialogs. You should receive your serial number and activation code within 48 hours. If you have not, please contact us at the above email address.

To Activate PMPlan4, first make sure that all information is entered into the “Licensing of PMPlan” dialog, including the Serial Number. Then enter the activation code into the “Activation of PMPlan” dialog.

On the above "Select/Start a Project" dialog, there are two sample projects for you to review, or you may "Start a new Project", or you may "Browse" to open existing PMPlan versions 3 or 4 files or MS Project files with the ".xml" extension (see the "Open PMPlan Project File" dialog).

To the best of our knowledge, all known bugs have been fixed. Please report any problems to techsupport@pmplan.com.

Thank you,

The PMPlan4 Development Team
